## **PART 2 Contribution of IFTDO to the work of the United Nations**

### **(i) Participation in the work of the Economic and Social Council**

IFTDO has a representative, Mr. Richard A. Zeif, who is the Adviser to the Office of the High Representative for the Least Developed countries, Landlocked Developing Countries and Small Island Developing States (OHRLLS). IFTDO is, therefore, represented at all briefings and important meetings in New York and elsewhere. Mr. Zeif has made, and will continue to make, many appearances on civil society programmes, where he speaks particularly about the Millennium Development Goals (MDGs).

Mr. Zeif also makes presentations on UN topics and matters of UN interest at annual IFTDO conferences. IFTDO member organizations are, therefore, kept up to date with UN developments and current issues.

IFTDO is a member of the Conference of NGOs (CONGO) and is active in CONGO meetings in the Geneva area. IFTDO is also an active member of the World Association of Non-Governmental Organizations (WANGO).

### **(ii) Cooperation with United Nations specialized agencies**

The specialized agency most closely linked to the work of IFTDO is the International Labour Organization (ILO), based in Geneva, Switzerland. Three IFTDO representatives attend the annual International Labour Conference organized by the ILO and participate in the discussions relating to items of mutual interest (e.g. lifelong learning, employment, HRD and training). There is constant dialogue between ILO and IFTDO representatives, and specific areas of joint activity over the past four years have included:

- the undertaking of research into current best national HRD practices and the writing of HRD case studies. This work was fed into the tripartite committee process which culminated in the publication of the new (2005) ILO HRD Recommendation 192;

- the preparation of a proposal in 2006 for a major (US\$20 million) project funded by the European Union for implementation by the ILO for the reform of the vocational education and training systems in Bangladesh;
- reviewing the impact and effectiveness of the ILO's Asian and Pacific Skill Development Programme (APSDEP) in 2004 and recommending future APSDEP strategy;
- the preparation of a US\$3 million project proposal in 2003 for vocational training and employment generation in the Philippines and Pakistan – the ILO has since implemented the project which was funded by the United States Department of Labor (USDOL);
- the development - and assistance in the implementation - of a national HRD strategy and policy in 2002 for the Republic of Mauritius - the work was financed by the UNDP, and IFTDO carried out the work on behalf of the ILO;
- the preparation of case studies in 2002 on high performance work practices in successful organizations in Bahrain, Cyprus, South Africa, Switzerland, the United Kingdom and the United States.

### **(iii) Initiatives undertaken in support of the Millennium Development Goals**

Most of the IFTDO activities at national level are aimed at MDG 1 - the eradication of extreme poverty and hunger - through the establishment of skill development systems to provide all citizens with appropriate skills to make them employable and thus able to generate income. Most of the items listed in the previous section fall into this category.

In addition, in 2006 IFTDO launched a project designed to assist in sustaining development activities. The project is being implemented in conjunction with a worldwide network of universities; it will provide development change agents with skills enabling them to achieve sustainability in their development activities. Primarily, the project will contribute to MDG 1, but it is expected that there will be additional benefits relevant to other MDGs.
